

# Cal-ISO 2001 Projections Look Grim

“Since 1974 California has actively discouraged the construction of new power plants, and the day has arrived when we have run out of power.” *Senator Tom McClintock*

## 2001 Estimated Surplus or Shortage in Megawatt Hours

Over/Short	-300	-201	1,283	4,382	-3,030	-6,815	-4,685	-5,297	-1,472
Supply	34,000	34,800	35,600	37,700	41,500	42,647	44,074	45,528	45,575
Demand	34,300	35,001	34,317	33,318	44,530	49,462	48,759	50,825	47,047
