# CONGRESSMAN TOM MCCLINTOCK

*Proudly Serving the People of California in Congress*

## CONSTITUENT SERVICES

It is an honor to serve the people of California's Fifth District in Congress. My staff and I are devoted to ensuring all constituents receive the service they deserve from the federal government. You don't have to struggle with federal agencies alone. We can help.

**Call us at (916) 786-5560 or go to my website at [mcclintock.house.gov](http://mcclintock.house.gov) for more information.**

Rep. McClintock meeting with his 2023 Military Academy Advisory Board

“

*History is crystal clear on this point: No country has ever taxed, spent and borrowed its way to prosperity-but many have done so to their ruin...Government spending can only be financed by taxes, borrowing or inflation. The root of our economic crisis is too much spending.* -Congressman McClintock

”

## SECURING OUR BORDER:

My most important assignment in this session of Congress is as the Chairman of the Immigration Integrity, Security and Enforcement sub-committee of the House Judiciary Committee. In 34 months, this administration has admitted an illegal population into the United States the size of the entire population of Arkansas.\*

Much of H.R. 2, The Secure the Border Act, was written in my sub-committee and incorporated into my bill H.R. 2640. It passed the House earlier this year and is the strongest border security bill in history. The legislation includes measures that will:

- Require detention of aliens illegally crossing the border until their cases are adjudicated
- Tighten asylum laws to prevent frivolous claims from overwhelming the system
- Require all employers to verify the immigration status of all employees
- Stop the sanctuary policies that make it impossible to deport criminal illegal aliens
- Require unaccompanied children to be immediately and safely returned to their homes in their own countries

Supporting legal immigration, Rep. McClintock speaks to new U.S. citizens at a USCIS Naturalization Ceremony in California.

Rep. McClintock speaking at a press conference highlighting the passage of H.R. 2 in Washington, D.C.

Rep. McClintock advocating for active forest management policies at Yosemite National Park.

## COMMON SENSE FOREST AND WATER

### MANAGEMENT:

For years chairing both the Federal Lands subcommittee and the Water and Power subcommittee of the House Natural Resources Committee, I have pressed legislation that would restore active forest management on our federal lands and restore abundance as the central objective of our water and power policies.

- My bill H.R. 186, the Water Supply Permitting Coordination Act, streamlines the review process for permitting new reservoirs to stop the endless delays and costly duplication that has stymied new dam construction in the west. H.R. 186 was included in the Energy and Water Development and Related Agencies Appropriations bill that recently passed the House.

Two of the forest management bills I introduced passed the House Natural Resources Committee and are awaiting a vote on the House floor:

- H.R. 188, the Proven Forest Management Act, which cuts through the red tape that is preventing us from removing excess timber from our forests.
- H.R. 934, Requiring the U.S. Forest Service to Immediately Suppress Wildfires, which requires the U.S. Forest Service to aggressively attack fires when they are first detected in forests that pose a severe fire hazard.

*"America must stand resolutely with Israel as it defends its people from the terrorism unleashed by Hamas on October 7th. Scan to watch my remarks on the House Floor."*
